

Samsung 990 PRO con dissipatore 2 TB

Marchio : Samsung

Codice prodotto: MZ-V9P2T0GW

Nome del prodotto : 990 PRO con dissipatore 2 TB

- Prestazioni eccellenti, PCIe Gen 4.0
- Compatibile con Playstation 5
- Dissipatore di calore ottimizzato

990 PRO NVMe 2TB con Dissipatore di calore, SSD interno  
Samsung 990 PRO con dissipatore 2 TB. Capacità SSD: 2 TB, Dimensione SSD: M.2, Velocità di lettura: 7450 MB/s, Velocità di scrittura: 6900 MB/s, Componente per: PC/console di gioco

| Caratteristiche                              |                                                       | Caratteristiche                         |           |
|----------------------------------------------|-------------------------------------------------------|-----------------------------------------|-----------|
| Versione di NVMe                             | 2.0                                                   | Supporto S.M.A.R.T.                     | ✓         |
| Algoritmi di sicurezza supportati            | 256-bit AES                                           | Supporto TRIM                           | ✓         |
| Capacità SSD *                               | 2 TB                                                  | Tempo medio tra guasti (MTBF)           | 1500000 h |
| Dimensione SSD *                             | M.2                                                   | Gestione energetica                     |           |
| Interfaccia *                                | PCI Express 4.0                                       | Tensione di esercizio                   | 3,3 V     |
| NVMe *                                       | ✓                                                     | Consumo energetico (max)                | 8,5 W     |
| Tipo memoria *                               | V-NAND MLC                                            | Consumo energetico (medio)              | 5,5 W     |
| Componente per *                             | PC/console di gioco                                   | Consumo energetico (inattivo)           | 0,055 W   |
| criptaggio hardware *                        | ✓                                                     | Dimensioni e peso                       |           |
| Dimensioni dell'unità SSD M.2                | 2280 (22 x 80 mm)                                     | Larghezza                               | 80 mm     |
| Velocità di lettura                          | 7450 MB/s                                             | Profondità                              | 8,2 mm    |
| Velocità di scrittura                        | 6900 MB/s                                             | Altezza                                 | 24,3 mm   |
| Lettura casuale (4KB)                        | 1400000 IOPS (Operazioni di input/output per secondo) | Peso                                    | 28 g      |
| Scrittura casuale (4KB)                      | 1550000 IOPS (Operazioni di input/output per secondo) | Condizioni ambientali                   |           |
| Supporto di DevSlp (standby del dispositivo) | ✓                                                     | Intervallo temperatura di funzionamento | 0 - 70 °C |
|                                              |                                                       | Shock di funzionamento                  | 1500 G    |
